

Activities

- Exposure activities for the students participating in the current project in the different groups: kindergarten, elementary and middle school including representatives of the municipality, towns association-Sakhnin and parents' committee.
- Taking a tour to Al-mal Park and choosing/determining the land with a team of counselors and school coordinators.
- Taking a tour that aims at bringing students at the different ages together and strengthening their ties via various activities that shed light on the topic "Sustainability".
- Implementing the principle of "Taking Responsibility" among students in addition to promoting activities that aim at implementing the initiative via video production and publication.
- The students of Taha Hussein group lecture at Al-Mutanabi school about their program in the past (sharing previous experience).
- Park restoration campaign: painting, planting trees and flowers.
- Putting signs and trash cans in different colors and sizes based on the students' choices in each group in the park and the surrounded area-along the way from Taha Hussein and Al-Mutanabi schools till they reach the park.
- Planning and conducting a Peak Day that includes all the participants and the general public in the park, involving the community in environmental responsibility/ fostering environmental responsibility. For example: writing a creed, recruiting volunteers from the community to implement the initiative in the community through raising awareness about the importance of the current issue, engaging

parents and community or participating in the campaign to take responsibility in cleaning.

- Building hiking trails for the public and painting them starting from the participating schools until reaching Al-mal Park, placing signs and sayings about the environment along the way in collaboration with the stores' owners and businesses located around the previously chosen trails/routes.
- Let's not forget the football players of Ihoud Bnei Sakhnin who are also partners in the campaign.

In each activity, digital tools and social networks will be used aiming at promoting the initiative.
