## Няколко думи за LfE

Учене от крайностите е подготвително действие на Европейския съюз - Увеличаване на достъпа до образователни инструменти в области и общности с ниска свързаност или достъп до технологии.

Проектът е насочен към преодоляване на неравенствата по отношение на достъпа до цифрово образование чрез засилване на приобщаването и чрез намаляване на цифровото разделение на училищните общности от отдалечени райони с ниска свързаност, ограничен или никакъв достъп до устройства и цифрови образователни инструменти и съдържание.

Bringing together social enterprise, scientific research, and the arts. What is SciCulture? The SciCulture project, funded by Erasmus+ embraces the unknown by bringing together science, art and entrepreneurship. We do this by incorporating transdisciplinary practice – or combining specific areas of knowledge into a new type of knowledge – with design thinking. Why is SciCulture important?
