## What did you like most about this training?

*The hands on approach.*

*The idea of implementing Storytelling in the class.*

*I really enjoyed sharing ideas and experiences with people from other countries and school systems. I liked the fact that the training was quite spread out, so there was time to digest and experiment with the digital tools between sessions. The course leaders were friendly and responsive to ideas. I particularly enjoyed the final session, where so many aspects that we had discussed fell into place when we could see everyone's work.*

*I liked the templates which we were provided with because they were interactive and easy to use.*

*Sharing the good practices scenarios.*

## What aspects of the training could be improved?

*Maybe during the break a possibility of interaction between the participants, in order to exchange cultural, teaching ideas.*

*Some of the presentations could be recorded and completed by participants in a flipped classroom style.*

*Incorporation of group work and exchange between participants via adequate platforms.*

***Thank you for your time***
