

Nota: Solo l'utilizzo del dimostratore permette di richiedere un'osservazione personale ai telescopi LCOGT

Come richiedere un'osservazione ai telescopi LCOGT

- 1) Collegarsi al sito: <http://lcogt.net/observe/> e usare l'account indicato all'interno del dimostratore.
- 2) Cliccare su "Request observation" (fig. 1).

Hello ISE,

Welcome to On Sky, the education observing interface for LCOGT Education, managed by Las Cumbres Observatory. If you need any help planning your session please [contact LCOGT Education support](#).

Dates and times are currently set to use UTC timezone. Change it on [your profile page](#).

Use the buttons below to access the different functions of On Sky.

Observing

Observations

[Book an observing slot >](#)

[View submitted observations >](#)

[Request observations >](#)

[View all your observations >](#)

Currently your quota is:

0 mins of bookable credit and **1800 mins** of queue credit on the **4-meter network**

If you require more credit please [contact LCOGT Education support](#).

Up-coming bookings

No current bookings

Your recent observations

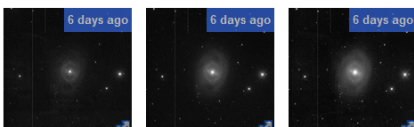

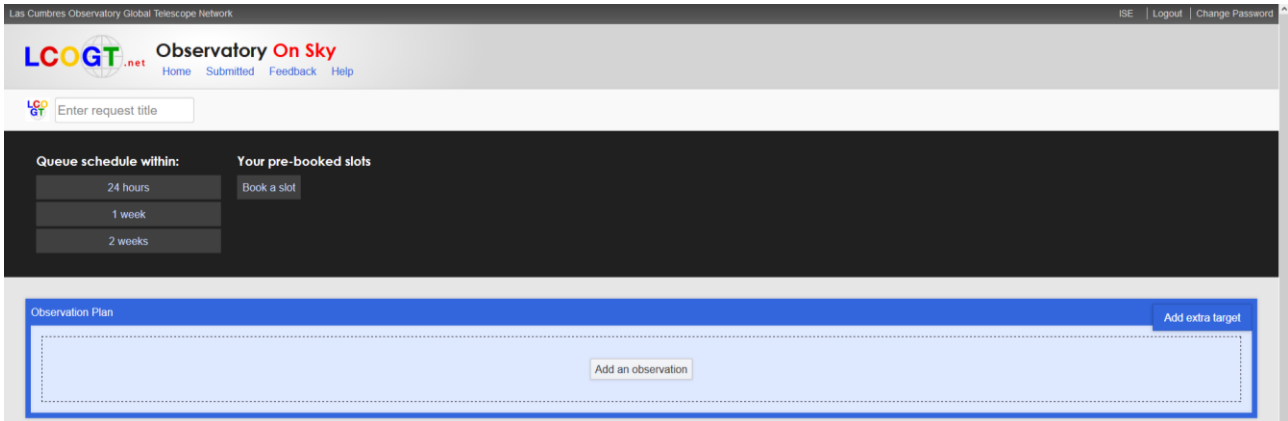

Fig. 1.

- 3) La lista Queue Schedule Within contiene gli oggetti osservabili rispettivamente in 24h, 1 settimana, 2 settimane. Ovviamente i tempi possono variare in funzione di condizione meteo e/o del numero di richieste pervenute. Si suggerisce di selezionare "1 week" e poi "Add an observation".

4) Apparirà una lista di oggetti astronomici, indicare quello desiderato o in alternativa il relativo numero del catalogo Messier.

Add a target

Target name: (e.g. "M82" or "Eagle Nebula")
Type a name to look up the coordinates

Right Ascension: e.g. 05:34:31.940
Declination: e.g. +22:00:52.200

3 color images?

Use single filter?

Exposure time (s) How many times?

Or select a target

HCG28	Group of Galaxies
NGC6070	Galaxy
UGCA91	Dwarf Galaxy
M52	open cluster
NGC4535	HII Galaxy
HCG31	Group of Galaxies
HCG32	Group of Galaxies
NGC1491	HII (ionized) region
HCG95	Group of Galaxies
NGC4157	Galaxy in Group of Galaxies
M61	Seyfert 2 Galaxy
NGC1931	Bright Nebula
Czernik12	Open (galactic) Cluster
NGC3521	Spiral Galaxy
M7	open cluster
NGC6341	Globular Cluster
HCG69	Group of Galaxies
NGC3299	Galaxy in Group of Galaxies
M70	globular cluster

5) Per visualizzare l'immagine richiesta acquisita dai telescopi, collegarsi nuovamente al sito indicato al punto 1, identificarsi, ed entrare nel menù "View Submitted Observations".
