Save the turtles, Save the sky

About the game:

Its a two players game, it takes around 6-12 minutes long, it is made to participate in the Dark Sky Rangers Game competition with the follow objectives.

Objectives:

- Communicate the causes and consequences of light pollution ;
- Raise awareness of the importance of using energy efficient outdoor lighting and direct the light downward ;
- Contribute to the reduction of light pollution and the preservation of the night sky ;
- Promote interest in astronomy.

How to play:

- For a 6 minutes game:
 - Which clip costs you 1 Euro.
 - You need a temporizer.
 - Every 30 seconds you receive 50 cents.
 - You have put a clip on at least 6 lamps (toothpicks)
 - For which clip that you put on a lamp you can spin a turtle around so that she walks to the sea side.
 - You have to turn all the turtles around before the time goes out.
 - You have to be fast, it's all about speed.
- For a 12 minutes game:
 - Which clip costs you 1 Euro.
 - You need a temporizer.
 - Every 1 minute you receive 50 cents.
 - You have to put a clip on at least 6 lamps (toothpicks)
 - For which clip that you put on a lamp you can spin a turtle around so that she walks to the sea side.
 - You have to turn all the turtles around before the time goes out.
 - You have to be fast, it's all about speed.

*If you are the winner you can know see the sky again as well as the turtles won't be extincted because of the light effience that you created. And the energy bill won't be so expensive.
