TEACHER'S NAME AND SURNAME: Rana Karatay

GRADE: Fourth Grade

COUNTRY: Turkey

SCHOOL: Pilot Binbaşı Ali Tekin Primary School

SCHOOL ADDRESS: Yeni Mahalle 6. Dere Sokak No 5 26120 Tepebaşı / ESKİŞEHİR

PHONE: 222 230 29 98

LIGHT POLLUTION GAME

The object of the game is to finish first and save the earth from light pollution and win the prize. Teacher hangs a flashlight on the black board and turn on it .It is played with two groups in the class. Teacher divides the black board into two sides. The 10 colorful papers (acceptable with the shapes of qualified lamps) are sticked on the board from the dark colors to light colors. Each color shows a level. There are some questions about light pollution in the box.

Each group chooses a group leader student for each question. The game starts when the teacher turns on flashlight (it means bad light) and the students try to turn off the flashlight (it means we fight with bad lights and eradicate it). Each group selects a card from the box, says YES or NO and if the group gives correct answer, teacher sticks a sticker on the first paper. Then, the other group selects a card, says YES or No and if the group gives correct answer, teacher sticks the sticker on the first paper on the otter side of the board. If one of the groups gives wrong answer, they back the first paper and the group starts the game from the first level. The group which reaches the flashlight and turn off the flashlight firstly wins the game and save the Earth.

(Prizes change into financial situation. For example; we will go to cinema and eat hamburger so the game attracts them very much)

QUESTIONS

- 1.Light pollution wastes all resources like electric, money or energy.
- 2.Light pollution has bad effects on all living creatures.
3. Light pollution destroys wildlife environment.
4. Light pollution destroys human health.
- 5.Light pollution doesn't affect the drivers at night.
- 6.Light pollution threatens migratory birds' lives.
- 7.Light pollution doesn't affect energy resources.
8. Light pollution has good effects on all living creatures.
- 9.Light pollution saves wild life environment.
- 10.Light pollution doesn't affect human health.
- 11: Light pollution affects the drivers at night badly.
- 12.Light pollution saves migratory bird's lives.
- 13.Light pollution has bad effects on the marine animals.
- 14.Light pollution helps the marine animals.
- 15.Artificial light at night disrupt the seasonal cycle of trees.
16. Artificial light at night has good effect on the seasonal cycle of trees.
- 17.Light pollution affects the climate change badly.
- 18.Light pollution treats the climate change.
19. Artificial light make your skin more beautiful.
20. Artificial light destroys your skin health.
- 21.Sky glow, glare and light trespass are the types of the light pollution.
22. Car lights are the main sources of the light pollution.

23. Car lights aren't the main sources of the light pollution.
24. Light pollution affects the astronomy badly.
25. Light pollution helps astronomy.
26. Light pollution affects the surrounding ecological community badly.
27. Using excessive light causes light pollution.
28. Light pollution affects sea turtles badly.
29. Light pollution helps sea turtles to find their home.
30. Light pollution makes Milky Way invisible.
