

➔ **Stop Road accidents**

Xanthi Chouliara
2nd Primary School of Riza

Distracted Driving

- Talking on the cellphone
- Sending a text message
- Eating/drinking
- Arguments/Loud chatting

Speeding

- Ignoring the speed limit
- The faster you drive, the later your reaction will be to stop in time to prevent an auto accident

Drunk Driving

- Drinking makes you lose focus and to function properly
- Is very dangerous when operating a vehicle

Rain

- Roads become slippery
- Difficult for drivers to see the other cars
- Causes vehicles to spin out of control while braking

Running Red Lights

- Red means stop
- Drivers speed up when they approach a yellow light
- People's excuse to this – “being in a hurry”

IMPACT

- Damage to the vehicle
- Tangible costs (repair costs, medical treatment, insurance costs)
- Intangible costs (pain, suffering)
- Hospitalization
- Handicap
- Death

SOLUTION  N

Education

- Improving a training in driving school
- Teaching students in moral subject at school
- Giving more information about road safety to everyone

Improving Road Conditions

- Government should pay more attention to the road surface and lighting at night
- The authorities should put signs at strategic locations to warn drivers

Campaign

- Organize campaigns about road and traffic safety to raise moral and ethics among the citizens

... so... be careful!

THANK
YOU
