OVERVIEW

EDUCATION

PERKS

We want to continue Rosetta's legacy by sharing her "heroic" story by using the Rosetta plush toy as an interactive teaching resource to educate school children around the world in astronomy and space sciences. We want to use this to train teachers and send them one of these toys for use in the classroom. With your pledge we will send a toy to where it's needed most: underprivileged schools around the world. Design & Data GmbH has partnered with Universe Awareness (UNAWA) to ensure just that.
